DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 14-16, and 18, drawn to the compounds of formula I wherein R1 contains hetero rings.

Group I, claim(s) 1-9, 14-16, and 18, drawn to the compounds of formula I wherein R1 does not contain hetero rings.

Group III, claim(s) 10-13, 17, and 18, drawn to the compounds of formula II.

2. The inventions listed as Groups do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: .

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: there are prior art for each of the groups. This means that a technical feature which already forms part of the state of the art cannot, by definition, make

a contribution over the prior art and does not, therefore, qualify as an unifying element in the sense of Rule 13.1 PCT. For Groups I-II and III, formula II is "far broader than formula I and actually defined only as a phenyl group." and the "compounds of formula II do not have the essential structural features of formula I." See the International Preliminary Examination Report.

3. A telephone call was made to Mr. Robert Murray on 6/12/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Tentative election of a single species with the elected group is further required.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
